WhatsApp Messenger: +39 3209504754 | **Address:** Viale C.B Cavour,47, 53100, Siena, Italy (Home)

ABOUT ME

Results-driven engineer specializing in **artificial intelligence**, **machine learning**, and **data engineering**. Proven ability to design, deploy, and optimize data-driven systems and models. Proficient in developing scalable machine learning solutions and implementing **DevOps** practices to enhance operational efficiency. Strong experience with **cloud platforms**, containerization, and CI/CD pipelines, facilitating the seamless integration of data processes and analytics.

WORK EXPERIENCE

02/08/2021 – CURRENT Firenze, Italy

MACHINE LEARNING ENGINEER | DATA SCIENTIST CONFIGURATORI

- Designed and implemented innovative **machine learning models** and software prototypes, improving predictive performance by **20%**.
- Developed custom algorithms tailored to specific industry needs, enhancing data processing efficiency by **25%**.
- Collaborated with cross-functional teams to integrate **AI solutions** into existing systems, resulting in a **30%** increase in workflow efficiency.
- Evaluated and deployed **deep learning architectures** for diverse applications, including neural networks and reinforcement learning.

04/2021 – 18/06/2021 Siena, Italy

DATA ANALYSTS KLIMSOFIT

- Led data analysis projects with **IBM** for MPS using **Cognos V11**, enhancing report accuracy and decision-making processes.
- Employed **statistical methods** and data visualization techniques to derive actionable insights, improving data reporting by **40%**.
- Designed and implemented **Business Intelligence** dashboards, integrating multiple data sources and increasing analytic capabilities.

02/2021 – 04/2021 Roma, Italy

UIPATH DEVELOPER (INTERN) SIEAD

- Developed automation scripts for quality verification of integrated systems, reducing error rates by **15%**.
- Analyzed automation reports and collaborated with development teams for continuous improvement.

20/11/2020 – 03/2021 BREMA, Germany

BACKEND UNIQMASTER

- Designed and implemented **RESTful APIs** for efficient data exchange between applications, enhancing system integration.
- Contributed to an Agile Scrum team, facilitating a high-tempo production environment and improving project delivery timelines.

EDUCATION AND TRAINING

09/2023 – 08/2024 Paris, France

MACHINE LEARNING ENGINEERING Sorbonne University

Website www.datascientest.com | **Level in EQF** EQF level 5

09/2020 – 03/2021 Akita, Japan
OVER-SEAS PROGRAM Akita International University

11/02/2019 – 30/06/2019 Vaduz, Liechtenstein
ERASMUS PROGRAM Università Liechtenstein

Website <https://www.uni.li>

10/2017 – 06/2022 Siena, Italy
MASTER DEGREE OF FINANCE università di Siena

Website www.unisi.it

● LANGUAGE SKILLS

Mother tongue(s): **ARABIC**

Other language(s): **ENGLISH** | **ITALIAN** | **GERMAN** | **FRENCH**

● DIGITAL SKILLS

Programming Languages

Python, R, SQL, Java, C#, Groovy, VB, JavaScript, PHP

Machine Learning & Data Science

Java, Python, C++, Keras, Pandas, VHDL, TensorFlow, SQL | Machine Learning: scikit-learn, TensorFlow, PyTorch | Deep Learning: Transformers (BERT, GPT), CNNs, RNNs, LSTMs, U-NET, RESTNET50 | Data Science: Pandas, NumPy, SciPy, Statsmodels | Data Visualization: Matplotlib, Seaborn, Plotly

Big Data & Cloud Technologies

Cloud Platforms: AWS (SageMaker, EC2), GCP (AI Platform), Azure | Big Data Tools: Hadoop, Spark, Hive | MLOps & Deployment: Docker, Kubernetes, CI/CD, MLflow, AirFlow | Databases: PostgreSQL, MySQL, MongoDB, Redis | Jenkins

● ORGANISATIONAL SKILLS

Key Skills

- **Machine Learning & AI:** Model development, deep learning, algorithm optimization, neural networks.
- **Data Engineering:** ETL processes, data pipeline construction, data integration, data warehousing.
- **DevOps Practices:** CI/CD pipelines, containerization, infrastructure automation, monitoring, and logging.
- **Business Intelligence:** Reporting, data visualization, statistical analysis, dashboard design.
